

## Rubber Disc Check Valves

Rubber Disc Check Valve comes with is a fully encapsulated resilient disc seat, double flange swing check valve for reliable reverse flow prevention, good for both clean water and sewage applications. The seat is fixed at 40° indication to help quick closure and minimize the water hammer and slamming.

### Design Features:

- ✦ Double flange design, the disc is made up of carbon steel plate, steel bar shaft and nylon reinforced fabric.
- ✦ The rubber disc is totally encapsulated in EPDM or NBR rubber for superior sealing and corrosion resistance.
- ✦ Nylon fabric is inserted into the disc for strengthening and preventing it from cracking and breaking during operations.
- ✦ Much shorter strike to minimize water hammer and water slamming.
- ✦ The flap disc rises above the flow profile reducing possible wear and damage.
- ✦ All iron parts are coated inside & outside with fusion bonded epoxy for corrosion resistance per AWWA C550.
- ✦ Simple design, top entry cover allows for access for cleaning, replacement and maintenance easy.
- ✦ Valve are certified NSF61 for Drinking Water and NSF72 for Lead Content.

### Typical Applications:

General Water Supply, Fire Fighting, HVAC, District Cooling & Sewage System

### Technical Data:

Design Standard:	AWWA C508
Size Range:	2" – 24"
Pressure Rating:	200 psi
Working Temperature:	-10°C – 80°C
End Connection:	ANSI B16.1 / B16.5
Face-to-Face:	AWWA C508
Test & Inspection:	AWWA C508 / API 598

## Rubber Disc Check Valves

## Parts List & Materials

No.	Parts Name	Materials	Standard
1	Body	Ductile Iron	ASTM A536
2	O-Ring	Rubber	NBR
3	Bonnet	Ductile Iron	ASTM A536
4	Bolt	Stainless Steel	ASTM A307
5	Washer	Stainless Steel	SS304
6	Plug	Stainless Steel	SS304
7	Disc	Carbon Steel + Rubber	ASTM A216 WCB + EPDM
7-1	Hinge Pin	Stainless Steel	ASTM A276 T304
7-2	Lining	Rubber	EPDM
7-3	Reinforcement Fabric	Nylon	Commercial
7-4	Disc Plate	Steel	Commercial

♦ Item no. 6 (optional).

## Main Dimensions

unit: inch
